

Bridging the Innovation Gap

Introducing Australia's leading course to future-proof our students' careers in business.

This is the first and only online entrepreneurial course available in Australia that is integrated with the National Curriculum, aligned with TAFE business courses and designed with teachers in mind.

Emerging Entrepreneurs Program

Created by today's entrepreneurs for tomorrow's business leaders, Emerging Entrepreneurs fills a critical need in education right now.

Emerging Entrepreneurs empowers students to imagine, create and build the careers of the future.

All designed within a straightforward resource kit for teachers, for easy delivery and minimal resources required.

Why?

This is the future of innovation and career development in the classroom.

Designed to meet an education gap, the course shapes the thinkers behind our future communities, cities and nations.

It nurtures entrepreneurial skills and business thinking, whilst providing wide-reaching benefits across core subjects.

How it Works

It's simple. Emerging Entrepreneurs is a plug and play high school program teaching entrepreneurship, problem solving and innovative thinking. Importantly, it focuses on the most effective way of learning by 'doing'.

Emerging Entrepreneurs empowers students to imagine, create and build future careers.

The course is mapped to the existing National Curriculum and soon to be accredited within select Australian States and Territories.

Course Design

The course has been designed with teachers in mind, with flexibility and convenience key to classroom delivery.

Teacher-guided across 10 online sessions, it can be integrated into the school term or as an extra-curricular activity.

Length is also flexible across one term or two, with content options to suit different learning styles and abilities.

Benefits of the Course

Did you know?

60 -70% of university students are studying for a job that won't exist in ten years. Emerging Entrepreneurs plays a critical role in educating our students today for a rewarding career tomorrow.

Simple

A lot of consideration has been given to how the program is presented to teachers. This includes a single online kit, including a teaching guide, lesson plans and ongoing email and phone support when needed. Making it all very simple to deliver.

Inspirational

This is a course students are excited to attend. They feel empowered and confident in creating their own career path, turning ideas and concepts into real businesses.

Convenient

The online course is designed to fit within the existing school program and to support our increasingly wireless world. As a cloud based program, Emerging Entrepreneurs can be accessed by students from any device at any time. So no matter where classrooms are based or what time of the year, this course is always available.

Practical

Hands-on is key. The course provides exercises, challenges and experiences to teach the dynamics of business, including sessions on branding, sponsorship, corporate social responsibility and product development.

Tailored

Every school is different, every classroom unique. Different learning styles. Different abilities. Different classroom sizes. The course can be tailored by teachers for personal learning.
